Lighting collections

We are a Czech studio specializing in the design and creation of exquisite lighting sculptures and chandeliers. Our craftsmanship illuminates private residences, luxury hotels, sophisticated commercial spaces, and opulent yachts, blending artistry with functionality to create bespoke masterpieces.

Headquartered in Prague, with production facilities in Nový Bor, Kamenický Šenov, Mladá Boleslav, and their surrounding areas, we proudly operate as a wholly Czech enterprise. Our commitment to excellence is underscored by our exclusive use of local resources and partnerships for our production processes.

In 2024, we have completed over 100 projects worldwide, spanning the United States, Europe, the Middle East, and Hong Kong.

Our portfolio encompasses a diverse array of projects, from intimate residential pieces to grand hotel lobbies.

Focus

Bespoke sculptures

We specialize in creating bespoke decorative lighting sculptures and installations for private residences, hotels, and various commercial buildings. Our collaborative approach with a diverse clientele allows us to introduce innovative and unexpected elements into each project.

Customizable collections

Our design and production capabilities include fully developed collections that can be customized to meet diverse aesthetic and functional requirements. These collections offer the advantage of reduced lead times and cost-effectiveness. Discover the perfect specification to suit your needs.

Maritime programme

Discover our nautical chandeliers, epitomizing the elegance of the sea at its finest. With meticulous craftsmanship and timeless design, these masterpieces infuse your space with noble charm. Illuminate your surroundings with a regal touch, capturing the essence of the sea in every radiant detail.

Architecture glass

Crystal partitions, walls, tables: our passion extends beyond lighting sculptures. We have a deep appreciation for crystal, making any aesthetic object of interest to us. Whether you need a vase for your table, a crystal glass table for your dining room or yacht, or a wall transformed with crystal, we bring these visions to life.

Bespoke Sculptures

Custom-made interior decorative lighting sculptures and installations. Each piece is a unique work of art that has its own spirit and message. It is more than just a product. It speaks for the designer, for the owner. It communicates with its surroundings. It creates value. It creates atmosphere and feelings. It generates memories and thoughts. It connects the tangible and intangible aspects of our being. It creates emotions.

Maritime Programme

Explore nautical chandeliers that embody sea elegance at its finest. With meticulous craftsmanship and timeless design, our works of art infuse your space with noble charm. Illuminate your surroundings with a regal touch, embracing the essence of the sea in every radiant detail.

Architecture **Glass**

While our passion for crafting exquisite lighting sculptures is unparalleled, it is merely one expression of our deep love for crystal. Every crystalline creation, whether a delicate vase, a gleaming glass table for your dining room or yacht, or an entire wall transformed into a shimmering masterpiece, is an opportunity for us to fuse artistry with elegance. We transcend the ordinary, turning your visions into stunning realities, one crystal at a time.

Collections

SIPEK&SPALEK offers more than bespoke lighting sculptures and chandeliers; it presents collections that seamlessly integrate into any interior. In the following pages, discover our curated designs, from intimate pieces for dining and living spaces to grand installations.

Each creation, crafted from hand-blown Bohemian crystal, embodies ancient glass-blowing traditions and the purest materials of North Bohemia. Every piece is a singular work of art, telling a story woven by the skilled hands of our artisans, preserving the legacy of their forebears.

Our collections are fully customizable in shape, size, components, finishes, and colors, with a diverse palette of crystal hues and coatings available.

Celestial

Celestial captures the ephemeral beauty of sunlight breaking through a cloudy sky. This glass-casted marvel, with its cloud-like form and sleek, sunray-inspired pipe, distills the moment when light reaches down to touch the earth. A harmonious dance of clarity and shadow, Celestial invites you to witness the serene convergence of nature's elements. Let it fill your space with the gentle glow of a fleeting celestial embrace.

Stellar

Our society envisions the universe as a vast expanse, ever-unfolding since the dawn of time. If we were to capture all its elements in a long-exposure frame, they would likely appear not as isolated points, but as sweeping trajectories—lines of expansion tracing the cosmic dance of creation. These luminous paths would paint a picture of the universe in motion, a visual symphony of endless growth and transformation.
